SPALDING COUNTY TO BEGIN RESURFACING ROADS APPROVED IN THE 2019 LMIG

Earlier this year Spalding County contracted with C.W. Matthews for the resurfacing for 13.24 miles of roadway. Funding for these projects came from GDOT's LMIG (Local Maintenance & Improvement Grant program) and the 2016 SPLOST. The following roadways were identified for resurfacing in the 2019 LMIG:

Magnolia Trail	From Wood Road to the End
Henry Jackson Road	From Ellis Road to SR92
Ellis Road	From the City Limits to N. Pine Hill Road
Vaughn Lane	From Vaughn Road to New Salem Road
Church School Road	From New Salem Road to Vaughn Road
Foster Road	From Bailey Jester Road to the End
Maddoxwood Drive	From the City Limits to the End
School Road	From Old Atlanta Road to Minter Road
Cheatham Road	From Mission Circle to W. McIntosh Road
Clark Road	From Zebulon Road to Meadow Lane Drive
Crabtree Road	From W. Ellis Road to W. McIntosh Road
Camp Street	From N. Lee Street to E. McIntosh Road
Patterson Road	From Vineyard Road to School Road

Paving preparation on Henry Jackson Road, Ellis Road and Cheatham Road will begin on August 30th and will continue until completion, weather permitting. The road beds will need to be patched prior the new asphalt being applied and public should be prepared for slower traffic as the patching and repaving process will result in lane closures and one-lane of traffic on these roads.

***Should you have any questions or concerns, contact
Spalding County Public Works Department at (770)467-4774.***
