

SPALDING COUNTY HOMELAND SECURITY

Spalding County Office of Homeland Security

What We Do:

The Spalding County Office of Homeland Security is tasked to coordinate all activities that are necessary in the protection of our citizens from natural and man-made disasters and emergencies that may threaten Spalding County, including the City of Griffin, Orchard Hill and Sunnyside. This initiative is a continual process of mitigation, planning, preparedness, response and recovery that works for the protection of lives, property and the environment of Spalding County. In the times of disasters and emergencies, the Spalding County Office of Homeland Security works as a liaison between local and state agencies for any needed resources, in addition to, working with local governments and organizations to develop disaster preparedness plans, with the enhanced training and exercise events of these plans.

- Develop and maintain local Emergency Management disaster and mitigation plans that are required by state and federal government.
- Provide 24 – hour liaison activities between local and state government.
- Provide 24 – hour point of contact for response and coordination of response activities.
- Provide liaison with local, state and federal authorities during disasters and emergencies.
- Develop and coordinate with other agencies for conducting training and exercise programs.
- Develop and distribute Emergency Management presentations, literature, public service announcements and other preparedness information for civic organizations, businesses and other public forums.
